

## **Gili Givoni- .net software developer- B.A. in Computer Science**

**Mobile: 052-8875550, e-mail: gilgiv@gmail.com**

### **Work Experience**

#### **2022-2023- ITNAV – Backend developer**

An integration company specializing in the worlds of call centers and telephony.  
In my role I developed web api services of the Rest api type working with the SSRS report service.  
In addition, I also wrote various DLLs for the on-going work. Everything is done in c# language under .net framework

#### **2021-2022- Comtec- a member of MalamTeam group**

Web developer  
Development, improvement and ongoing support of a responsive web system for leading insurance companies.  
Extensive use of client side (page design using html, css, JQuery, JS, Bootstrap 5 (and server side) Asp.net, c # and Vb.net)

#### **2017-2021- Tiful Gemel LTD**

Software Developer  
Characterization and development of interfaces, intended to support the operation of pension and provident funds.  
The interfaces (modules and win forms) were developed in the .net environment under VS2017 in vb.net and c #.  
The main work was in data processing for the "pension clearing service" (המסלקה הפנסיונית) and included receiving data files (XML files) for tables, analyzing the information and creating complex responses at a fixed or variable frequency with different logics.  
The work included integration tests with large financial institutions and participation in professional conferences.  
The development work included extensive use of Linq2Sql, building complex queries, building Stored Procedures and SQL functions as well as designing and building data tables.

#### **2001-2017- AGAN Paper and Software Industries**

**2014-2017-** Software Developers Team Manager

**2011-2013-** Software Developer

Characterizing, designing and developing desktop applications for handling printing data for customers in C# (win forms) in .net 4 VS2015 software environment . The applications include report handling, data processing, editing and sorting different files in a wide-range of formats (XML ,PDF ,EXCEL, etc.). The applications include modern user interface and automation of printing jobs.

#### **2009-2011- Service and Sales Representative – Cellcom Professional Center**

Service and sales for private and business customers regarding software, internet and smartphone.

#### **2008-2009- Automatic Testing- Tools Developer- RADVISION for TYROS**

Developing automatic testing tools for control systems of video conferences calls.  
The automatic tools were used both for functional and load tests of the different systems.  
Using TestShell software and C# language in VS 2005

#### **2004-2007- Discount Bank "OFEK" Project Developer**

**2005-2007-** Development of a unique tool for table conversion in SQL SERVER 2005, VS 2005, VB language.  
Testing automation development. Working with ADO.net by queries and functions writing with SQL SERVER 2005.  
**2004-2005-** Manual QA- planning of testing scenerios and running full manual testings as part of the bank's modern software functionality.
